

Retraction

GB virus C/hepatitis G virus replicates in human haematopoietic cells and vascular endothelial cells

A. Handa and K. E. Brown

Journal of General Virology (2000), **81**, 2461–2469

I wish to retract the above article. I have learned that Fig. 3 was fabricated by the first author. The data supporting the rest of the paper have been 'lost' and therefore I cannot verify the accuracy of those data. I deeply regret that this serious problem occurred, and sincerely apologize to any of my colleagues who may have been misled or inconvenienced by this publication.
